ARTICLE ONE

INTRODUCTION

Late in 1964 a study of transportation in the Abilene urban area was begun, with respect to existing facilities, existing deficiencies, and future needs. This study was initiated as a result of the passage by Congress of the Federal-Aid Highway Act of 1962, which provided for a "continuing, comprehensive transportation planning process carried on cooperatively by States and local communities" for each urban area of more than fifty thousand population. Completion of the initial phase of study covering ten (10) basic study elements resulted in the publication of a two volume report: Abilene Urban Transportation Plan, Volume 1, 1965 Origin-Destination Survey, published in 1966; and Abilene Urban Transportation Plan, Volume 2, 1965-1985 Transportation Plan, published in 1968.

In order to provide for the continuing phase of the comprehensive cooperative planning process for the purpose of keeping Abilene's transportation plan up to date, a continuing phase agreement between the City of Abilene and the State of Texas was executed on January 23, 1969, and superseded by a revised agreement, including Taylor County as a party, executed March 30, 1973. This revised agreement provided the guidelines for the organization and functioning of the continuing phase of the Abilene Urban Transportation Study. It also assigns the primary responsibility of each of the basic study elements to either the city, state or county.

On July 2, 1974, the Governor of Texas designated the City of Abilene to be the Metropolitan Planning Organization (MPO) which, in cooperation with the State, would have overall transportation planning responsibilities for the urbanized area. The designation was repeatedly renewed until 1988 when the designation became continuous. A series of agreements between the State of Texas and the City of Abilene have assigned individual and joint responsibilities to the State and the City of Abilene in the conduct of transportation planning activities to fulfill the requirements of federal and State law.

The 1973 agreement established a group structure to provide overall transportation policy guidance for the planning activities. Initially, the group structure contained two committees: a Policy Advisory Committee consisting of area legislators and elected officials of local governments and a Steering Committee consisting of other elected officials and key transportation planning staff personnel. The group structure evolved in response to changes in legislation and contractual agreements, becoming a single Abilene Urban Transportation Planning Committee with both voting and non-voting members. The group adopted the name Abilene MPO Transportation Policy Board in 1993 and continues to act as the forum for cooperative transportation planning decision making and the provider of overall transportation policy guidance to the MPO.

STAFF

Section 4.01 Planning Coordinators

Because of the joint responsibility of the MPO and Texas Department of Transportation to carry out transportation planning, the Abilene Metropolitan Transportation Planning Program uses two planning coordinators. One coordinator directs the Texas Department of Transportation's planning staff in its day to day activities and one directs the MPO planning staff. The MPO coordinator and the TxDOT coordinator work closely to see that the planning process is accomplished in a comprehensive and efficient manner.

The coordinator for TxDOT is the transportation planner. This coordinator's responsibilities are as follows:

- A. Maintain current records of expenditures by the State and the Federal Highway Administration for surface transportation facilities within the Study Area.
- B. Ensure the preparation and/or execution of the planning elements for which this document, the Transportation Policy Board, or the urban transportation planning contract assigns responsibility to the State.

The coordinator for the MPO is the MPO Executive Director. This coordinator's responsibilities are as follows:

- A. Annually or biannually supervise the preparation of the Unified Planning Work Program.
- B. Oversee the development of a metropolitan transportation plan that will complement the Statewide Multimodal Transportation Plan required by state and federal law.

- C. Arrange for meetings of the Transportation Policy Board when appropriate, but at least once a year.
- D. Maintain a file of annual summaries of all study elements involved in the continuing planning process and prepare an annual progress report to reflect general development and plan implementation within the area.
- E. Direct MPO transportation planning staff in the preparation and/or execution of the planning elements for which this document, the Transportation Policy Board, or the urban transportation planning contract assigns responsibility to the MPO.
- F. Maintain liaison and act in an advisory capacity to the Transportation Policy Board.
- G. Coordinate and maintain liaison between the Cities, the Counties, and the State.
- H. Through coordination with State and local officials, develop and annually update the Transportation Improvement Program.
- I. Recommend to the Transportation Policy Board special studies, revision of the Transportation Plan, or renegotiation of the urban transportation planning contract when considered appropriate.
- J. Arrange for meetings between the MPO staff and the TxDOT staff, as necessary.

In certain areas of the planning process the duties of the coordinators overlap to such an extent that one coordinator cannot be singularly responsible. Such areas of joint responsibility are as follows:

- A. Ensure an active effort to involve the public in the planning process.
- B. Make available to participating agencies all projected traffic and other data relative to the Study Area.
- C. Arrange for additional or modified traffic assignments and assist in the procurement of additional data for zonal traffic forecasts
- D. Effect studies and procedures to ensure the planning process is in compliance with Title VI of the Civil Rights Act of 1964.
- E. Assure that special efforts are made in the planning stage so that older persons and persons with disabilities can effectively utilize public transportation facilities and services.
- F. Ensure that all planning efforts include all considerations mandated by applicable law.

The MPO staff shall be employees of the fiscal agent. The work of the staff shall be directed by the Transportation Policy Board.
